SUMMARY

PHP/Laravel Developer with 3.5+ years of experience building scalable web applications using PHP, Laravel, MySQL databases. Skilled in RESTful API development, backend optimization, debugging, and writing clean, maintainable code. Experienced with MVC architecture, performance tuning, and modern development practices including CI/CD and Docker. Strong ability to own modules end-to-end and collaborate effectively within Agile teams. Seeking to leverage solid Laravel expertise and backend development skills in a growth-focused environment.

EDUCATION

University of BDT College of Engg

Bachelor of Engineering , CGPA: **7.3/10.0**

Davanagere, Karnataka

2019 – 2022

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, HTML, CSS, Bootstrap, jQuery

Frameworks: Laravel

Databases & Messaging Systems: SQL, Redis, MSSQL

Developer Tools & Platforms: Docker, AWS, Xampp

Version Control: Git, GitHub, Gitlab

EXPERIENCE

Software Engineer , Skills OutSource Think Pvt Ltd

Dec 2024 – Present

- Designed and developed custom web applications and APIs using Laravel Framework, PHP, MySQL, and Vue.js
- Developed clean, reusable, and well-documented code with performance optimization and security best practices.
- Led the integration of third-party APIs and services into various applications, ensuring seamless data flow and functionality.
- Collaborated closely with front-end developers, product managers, and designers to deliver full-stack solutions that met both functional and aesthetic requirements.
- Worked with Git for version control and participated in code reviews to ensure code quality and adherence to coding standards.
- Troubleshoot and debugged issues reported by clients or users, providing timely solutions and ongoing maintenance support.
- Contributed to the architecture and design decisions for large-scale projects, including database schema design and API structure.

PHP Laravel Developer, Nexevo Technologies Pvt Ltd

Aug 2023 – Nov 2024

- Migrated legacy systems to Laravel, improving system maintainability and performance.
- Optimized database queries and performed performance tuning to enhance application speed.
- Participated in Agile/Scrum development processes, contributing to sprint planning and reviews.
- Configured and deployed applications using CI/CD pipelines for streamlined development workflows.
- Conducted code reviews developers, fostering a collaborative team environment.

Junior Web Developer, StepIn Technologies

May-2022- Aug-2023

- Developed and maintained web applications using Laravel, enhancing functionality and performance.
- Designed and implemented RESTful APIs, ensuring seamless integration with third-party services.
- Utilized Eloquent ORM for efficient database interactions and complex queries.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Managed version control with Git, maintaining clean and efficient code bases.

PROJECTS

Digital Campus ,Gurudeva, Baker Creek ,My Nextory, Krishibazaar, Agileasia, Zeronoticeperiod, Srinipharmacy, Astrowebguru, WeDriveglobal, Safemate Plus, Abby Services, EureCab
